Associate in Science
Finance
The Finance AS degree prepares students for careers in finance and the financial services industry. The degree is designed for individuals who want training in income taxation, finance, money and banking, and investments. Students who successfully complete the program should be able to: 1) perform basic financial and accounting tasks both manually and using a computer; and, 2) demonstrate the relationships among the various business functions such as accounting, finance, marketing, purchasing, operations, and human resources.
